

Save Money and Time with CFG's Quick-Install Flexible Supply Lines

Select CFG® products come with 24" braided flexible supply lines and 3/8" connections that shave time and trouble out of every project. You reduce installation time for each faucet while you reduce the total number of connections made onsite. And those savings go right to your bottom line.

- Available on kitchen and lavatory faucets
- Reduces labor cost by saving your staff time during installation
- Reduces the number of SKUs inventoried in your maintenance shops
- Reduces the opportunity for leakage due to installation errors

TEN-YEAR **10** LIMITED WARRANTY

Quick-install flexible supply lines are available on these CFG suites:

Baystone® **Capstone**® **Cornerstone**®
