2009 – 2010 HD SUPPLY QUICK-REFERENCE GUIDE

Time is money. That's why we're pleased to bring you the 2009–2010 HD Supply Quick-Reference Guide for Moen®, Cleveland Faucet Group® (CFG), and Creative Specialties® products. This guide helps you quickly reference the HD Supply number for some of the most popular products. A few items of note this year:

- **New "CA" Part Numbers.** A number of faucets in this guide have a triangle icon in front of the part number indicating that there is a California AB1953/Vermont S152 compliant version available. The full in-stock compliant part number list can be found on pages 9 and 10 of this guide. While all of Moen's faucets comply with the EPA's stringent lead safety standards, these states issue separate legislation which reduces the existing plumbing lead standard for faucets and plumbing fittings that convey drinking water to 0.25 percent.

The legislation does not go into effect until January 1, 2010. However, in an effort to make this transition easier, Moen has compliant versions of all kitchen and lavatory faucets offered by HD Supply available now. (**NOTE:** The "CA" part numbers listed in the back of this guide are those that are currently in stock, but all "CA" equivalent items can be ordered through Special Orders by calling 1-800-431-3003.)

- **Water-Saving Products.** Now more than ever, MOEN and CFG products are designed to help conserve water without sacrificing performance. From faucets that are certified to meet WaterSense® criteria to showerheads that contribute toward earning valuable LEED® points, there are a variety of eco-friendly choices.

As of January 1, 2009, all Moen and CFG lavatory faucet products feature a 1.5 GPM aerator that is certified to meet WaterSense criteria, and several showerheads are available with a 1.75 GPM flow rate, which is a savings of up to 30% over standard showerheads.

To place an order or for additional information, please call 1-800-431-3000 or visit hdsupplysolutions.com.

Water-Saving Products from CFG®

Cleveland Faucet Group is pleased to offer a host of water-efficient products. These designs reduce water consumption, energy costs, and sewer bills, with the added benefit of contributing toward valuable LEED® points—more ways CFG delivers long-term value and exceptional return on investment to the multifamily market.

BATH

Lavatory Faucets

As of January 1, 2009, all lavatory faucets are manufactured with a 1.5 GPM aerator. The packaging label clearly displays the WaterSense® logo and the 1.5 GPM flow rate.

- Use up to 30% less water
- Certified to meet WaterSense® labeling criteria

SHOWER

Water-Saving Showerheads

- 1.75 GPM
- IAPMO Green listed
- Use up to 30% less water
- Rubber spray formers are easy to clean; simply wipe off any hard mineral deposits
- Order as a stand-alone item or as an option on all Capstone® and Cornerstone® trim kits
- Available in Chrome and Brushed Nickel

Flow-Optimized Aerator Kits

- 1.5 GPM
- Use up to 30% less water
- Easy, low-cost retrofit to any existing faucet

KITCHEN

Kitchen Faucet Service Kits

Available for all kitchen faucets, the flow-optimized aerator kits use up to 30% less water and are an easy, low-cost retrofit option.
