

Product Fact Sheet

CFG'S BAYSTONE™ SUITE OFFERS TRANSITIONAL STYLE, NEW FAUCET OPTIONS FOR MULTI-FAMILY PROPERTIES

- Meets the market need for consumer-preferred, transitional style with new faucet configurations for the kitchen and bath
- Ideal solution for management companies looking to standardize over a number of markets—as its transitional style makes it the perfect fit for virtually any property—from traditional to contemporary
- Features a number of new platforms from CFG, including a widespread lavatory faucet; single-hole, single-handle lavatory faucet; pulldown kitchen faucet and single-hole, single-handle kitchen faucet, available with or without coordinating sidespray
- For added flexibility, the kitchen faucets and single-handle lavatory faucet can be installed as part of a single-hole application; or with a three-hole coverplate for use with conventional pre-drilled sinks
- Additional bath products include a two-handle centerset lavatory faucet, garden tub and coordinating tub/shower trim for both cycling and volume control valves
- All Baystone lavatory faucets are certified to meet EPA WaterSense® criteria
- Water-saving shower trim options are available
- Ceramic disc cartridges are nearly maintenance-free and are very durable in a variety of water conditions
- Neoprene® gaskets take the place of plumber's putty—saving time and money
- Pressure balancing and temperature limit stops are standard on shower valves
- Finishes include on-trend PVD Classic Stainless, PVD Brushed Nickel and Chrome
- 10 year limited warranty
- ADA compliant
