

CFG

## Pressure Balancing Cycling In-Wall Valve With Stops

### DESCRIPTION

- Brass construction
- 1/4" turn shut - off stops
- 1/2" connections: IPS - exterior  
CC - interior
- Pressure balancing 4 port cycling valve
- Twelve (12) individual boxes per master carton

### OPERATION

- Pressure balancing mechanism maintains selected discharge temperature to  $\pm 3^{\circ}\text{F}$
- Adjustable temperature limit stop to control maximum hot water
- For use with stud thicknesses 2-1/2" or greater

### CARTRIDGE

- European ceramic disc technology
- Non-metallic, non-ferrous, and plastic material

### CRITICAL DIMENSIONS

### STANDARDS

- Third party certified to ASME A112.18.1/CSA B125.1, ASSE 1016, and all applicable requirements referenced therein
- All CFG products are compliant to all plumbing codes that require 3rd party certification to the applicable plumbing/fitting standards

### WARRANTY

- Ten (10) year limited warranty against defects in materials and manufacturing workmanship
- Refer to the installation instructions enclosed with each CFG product or call 1-888-450-4910 for complete warranty information.

**A Moen Incorporated Brand**

Model: **45311**
